

RIO Hucho Game Changer - Cutting Table

This cutting table is made for T-Tips from 2-4 m of length to adjust them your rod length and the available back space. You will find a weight chart for metered T-Tips at the end of page 2 that allows you to further shorten the total length of the SH system. The monofil leader can be adjusted to the visibility at site. Usually it is between 1 – 2m in length.

Please take into account that for overhead casts the weight of the wet streamer has to be added to the system weight! Take care to stay within your rods grain window!
